Himalayan salt has no preservatives or additives and is processed without harsh chemicals. This pure salt is found deep inside the pristine Himalayan Mountains and is mined by hand and ground by stone. The high mineral crystals range in colour from sheer white to varying shades of pink to deep red which indicates a beneficial amount of 84 trace elements and iron. These minerals give the salt a fine, subtle flavour which suits any cuisine. It is also delicious!

The production of gourmet oils is a time-honoured tradition in France. Originally, each village had a mill which roasted and extracted the oil from nuts gathered by local farmers. These delicious oils were used in hearty rustic fare and were also found in Paris' finest restaurants. La Tourangelle is one of just a handful of these remaining mills that keep this tradition alive. Through a partnership between one of the oldest and most respected French artisanal oil mills, Huilerie Croix Verte SAS from Saumur, France, and California Oils Corporation, La Tourangelle has succeeded in recreating the spirit of a traditional French oil mill in Woodland, California. Hand-crafting a wide range of delicious artisan oils in both California and France, La Tourangelle distributes an exclusive line of premium quality oils in many countries around the world.

Chef's Choice Certified Organic Passatas are a superior tomato base made from the highest quality organic tomatoes and basil, hand picked and ripened under the beautiful Italian sun. The tomatoes are skinned, crushed and sieved to remove the seeds, leaving only the most succulent parts of the tomato. Passata is the key ingredient in many pasta sauces, and also makes an excellent base for pizzas, curries and soups.

HBC boasts the highest quality saffron in Australia and New Zealand based on international standards through laboratory testing. Saffron is considered the most expensive spice in the world, due to the extremely labour-intensive process involved in harvesting these fine threads. This musty, honey-flavoured spice is best used in small quantities, often becoming bitter when overused. Most commonly used in risottos and paellas, this beautiful spice is a staple ingredient for Middle Eastern and European dishes.

Chia seeds are one of nature's super foods - high in essential fatty acids, protein, soluble fibre, antioxidants, vitamins, and minerals. They are easy to use, taste good, and can become a valuable addition to your diet.

Flaxseed has a pleasant nutty taste and is a good source of dietary fibre, protein and other nutrients that make them a popular addition to any diet. While whole flaxseeds feature a soft crunch, the nutrients in ground seeds are more easily absorbed. To achieve this simply grind the flaxseeds in a coffee, seed or spice grinder.

Chef's Choice Certified Organic Linseed has a pleasant nutty taste and is a good source of protein and dietary fibre, making these tiny seeds a popular addition to any diet.
